High-achieving, results-oriented individual with strong critical thinking skills. Collaborative and self-directed team player who excels when challenged. Skilled in both front and back-end development while utilizing agile workflows. Expertise in crafting responsive, user-friendly interfaces and brand identity, emphasizing solid design practices.

Work Experience

Intern, JTech Communications - Bozeman, MT

January 20, 2025 – May 10, 2025

Collaborated with Developers and UX Designers under NDA to create intuitive webpages for multiple businesses inside and outside the State of Montana, with a focus on client relations.

Projects include but are not limited to:

- Opportunity Bank of Montana - rebuilt website and user-interface design by improving readability and accessibility.
- TJ Toohey Technology Law - website, logo, and brand identity creation.
- AlarmWorkz Security - website interface design.

Freelance, Logo Design - Remote

June 10, 2025 – Present

Created logo and product brand identity components for startup businesses.

Notable client projects:

- KICS Audio - Audio Engineering logo and brand design for business clothing and website reuse.
- CarbonX Labs - Company Logo rebuild and redesign for patented products, designed individual product model logo designs.

Ski and E-Bike Technician, MSU ORP & Greggs Cycles - Bellevue, WA

August 12, 2025 – Present

Worked for the Ski and bike shop at the MSU Outdoor Recreation Program. Transferred to Greggs Cycles In July 2026.

Important Notes:

- Certified ski and bike/E-bike technician.
- Ran leadership trainings and clinics for students and co-workers.
- Handled sales and products using the Trek Ascend retail management database system.

Education

Montana State University - BA Computer Science & BFA Graphic Design

May 2026

Achieved Dean's List every semester with a 3.7 average GPA across both degrees. Developed portfolios utilizing experience in both code and design.

Academic Focuses:
